

Smart Cooling. Smart Savings.

Premium HVLS
technology for
forward-thinking
businesses

8ft & 10ft Models

One Niko Fan Replaces 15-20 Ceiling Fans

Same coverage. 80% less energy. Whisper-quiet operation.

Stop multiplying your problem. Traditional ceiling fans consume massive energy, create uneven cooling, and leave hot spots across your facility.

Niko HVLS fans deliver powerful air circulation across your entire space using a fraction of the energy.

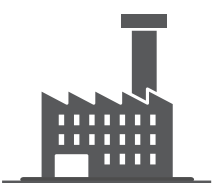

Coverage:

One fan. Complete coverage. Zero compromises.

8ft Model → Covers 1,000 sq ft

10ft Model → Covers 1,500 sq ft

Ideal For:

Manufacturing

Warehouses

Corporate Offices

Restaurants

Animal Husbandry

Retail & Malls

Gym

Banquet Halls

Cafes

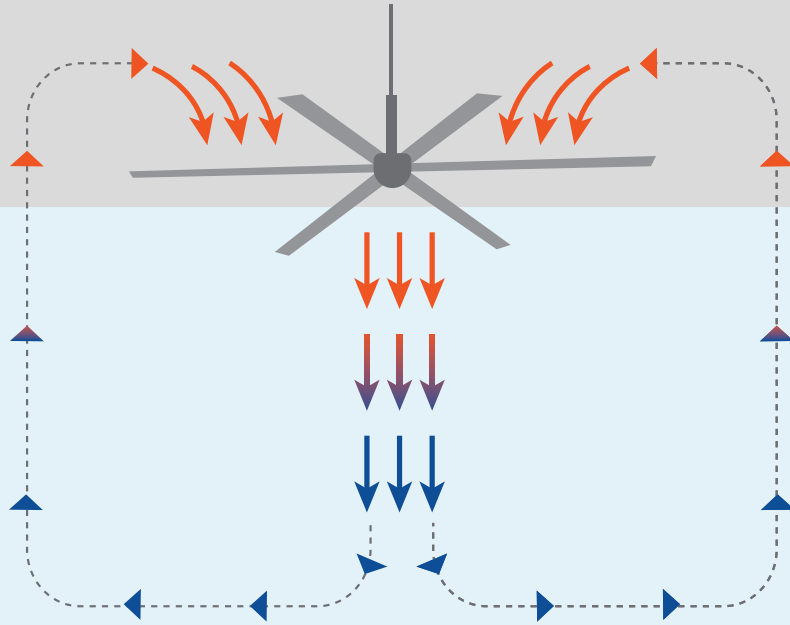

Cold Storage

Schools & Colleges

One Fan. Two Seasons. Endless Savings.

Most fans sit idle
6 months a year.
Niko works 365 days.

Summer

How It Works:

Counter-clockwise rotation pushes air downward, creating constant airflow across your facility.

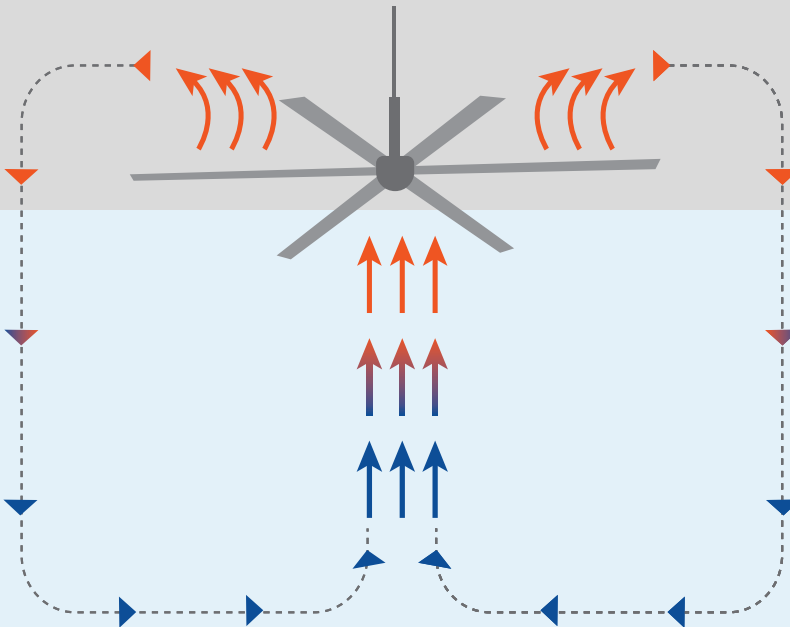

Energy Impact:

Reduces AC load by 30-40%. Lower thermostat settings without sacrificing comfort.

The Effect:

Evaporative cooling on skin reduces perceived temperature. Workers feel comfortable without cranking the AC.

Winter

How It Works:

Clockwise rotation redistributes trapped hot air from ceiling back down to floor level.

Energy Impact:

Reduces heating costs by up to 30%. Uniform temperature means less heater runtime.

The Effect:

Eliminates temperature stratification. Consistent warmth throughout the space without drafts.

One-Button Reverse Switch

seasons with your remote. No tools. No hassle. Just comfort year-round.

Why Businesses Choose Niko?

Premium technology.
Unbeatable value. Local
partnership.

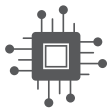

PREMIUM TECHNOLOGY

PMSM Motor

Same technology as ₹2 lakh+ brands. Permanent Magnet Synchronous Motor delivers 30% more efficiency than geared motors.

Direct Drive

Zero gears. Zero oil. Zero maintenance. Just 10+ years of reliable operation.

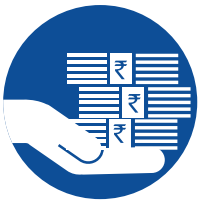

Whisper-Quiet

25 dB operation - that's library-level silent operation. Quieter than a conversation.

Ultra-Lightweight

18-20 kg vs 120-150 kg competitors. No ceiling reinforcement needed. Installs anywhere effortlessly.

EXCEPTIONAL VALUE

Half the Price

Premium PMSM technology at half the price.

80% Energy Savings

One Niko fan uses less power than 2-3 ceiling fans combined.

12-18 Month Payback

Energy savings cover your investment. Then it's pure profit for 10+ years.

Year-Round ROI

Summer cooling + winter heating = accelerated returns.

LOCAL PARTNERSHIP

Pune-Based

Founded and operated in Pune. Serving Maharashtra businesses with a 1-day installation assurance.

Same-Day Response

Service commitment, not just a claim. We're here when you need us.

On-Site Warranty

2-year comprehensive coverage. We come to you, no shipping fans back.

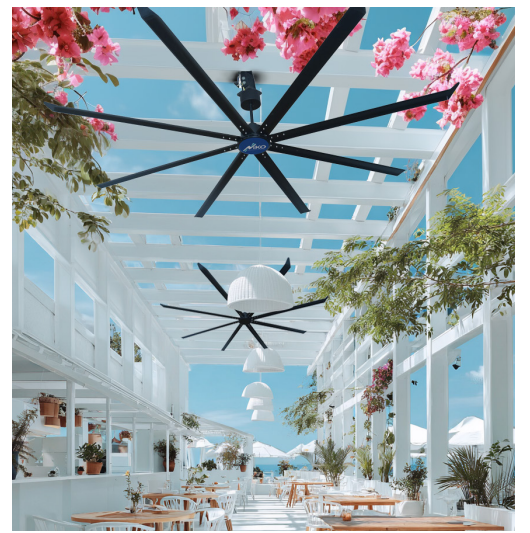

Founder-Led Initiative

Direct access to decision-makers. Your success is our reputation.

Built for Every Industry

From factory floors to boardrooms - Niko delivers comfort everywhere.

MANUFACTURING

Keep workers productive in Maharashtra's heat. Cover 15,000 sq ft floors with 3-4 fans. 80% energy reduction vs. ceiling fans.

WAREHOUSES & LOGISTICS

Massive coverage for high-ceiling spaces. Move air efficiently across loading docks and storage areas. Year-round temperature control.

CORPORATE OFFICES

Professional appearance. Library-quiet operation. Reduces AC bills by 40% without disrupting calls or concentration.

RESTAURANTS & CAFES

Guest comfort without noise interference. Elegant all-black design. Keeps dining spaces pleasant during peak hours.

GYMS & FITNESS CENTERS

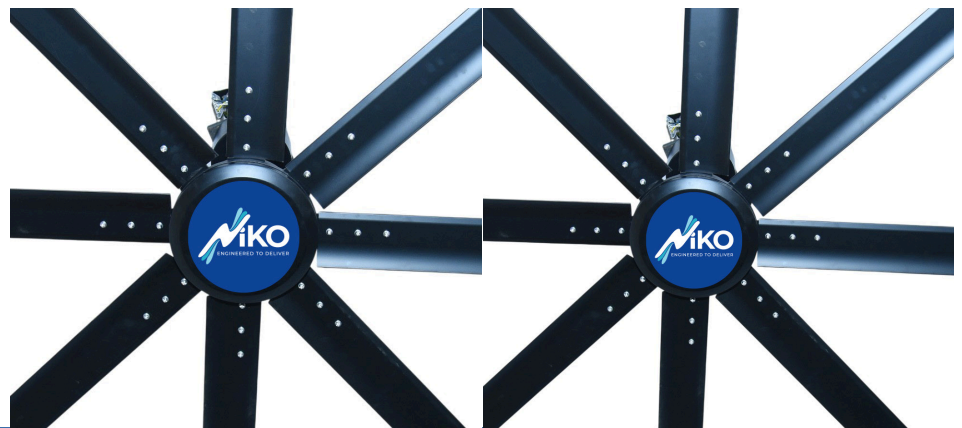

Constant airflow keeps members cool during intense workouts. Reduces humidity. Improves air quality naturally.

BANQUET HALLS & EVENT VENUES

Summer weddings, winter functions - one fan handles both. Silent operation doesn't interfere with music or speeches.

Two Models. Every Space Covered.
